

NCLE's Language Networks' Webinars Overview Autumn Term 2025

NCLE's Language Networks

Our 14 Language Networks are here to connect local and regional networks of primary and secondary schools to support their language teaching. Each Learning Network is coordinated by an NCLE lead school and leads a [National Priority Project](#) with coordination from a team of NCLE specialist advisers.

As part of their work, [our Language Networks](#) are delivering webinars covering a range of topics and issues facing language teachers and learners. Join these webinars, wherever you are based in the country. Discover new ways of working, reflect about your practice and take steps to transform your classroom.

Further programming will take place in the Spring Term 2026 which we will share in due course.
